Sustainability Certified fast-growing European tree farms.

deco

HIGHLY DURABLE DECORATIVE PLYWOOD

Decorative plywood with high durability in indoor environments with high humidity.

Core modified by an innovative treatment that makes it immune to fungal* and xylophage insect attacks, even after sanding or machining.

Wide variety of faces in beautiful natural wood with great surface quality: **maple**, **walnut**, **cherry** and **white oak**.

Maximum sustainability due to its composition based on top-quality European wood sourced from fast-growing tree farms, which additionally makes the panel highly stable, smooth, lightweight and easy to machine.

Applications:

Especially designed for building furniture and for decoration projects in demanding humid conditions.

Available in a UV finish on one or both faces, highlighting the beauty of the natural wood grain with a long-lasting finish, maintaining the sheen over time. υv
