Qualité 2

Photos de placage en taille réelle ici !

Taking into account that these photos are for internal use, if shared with clients, they should be informed that the photos are intended to show the natural variability of the wood within the same quality grade, in the batches photographed.  
The different quality grades have a wide range of admissible defects; consequently, these photos do not imply any guarantee from Garnica that they are representative of other batches. They are simply examples of what might be found in each quality grade.
