POPLAR CORE PLYWOOD WITH OKOUMÉ FACES

Lightweight panel with European poplar core and decorative okoumé faces. Its visual appeal with characteristic reddish tones and machinability make it a very versatile panel.

Its poplar core, sourced from European sustainable plantations provides lightness, stability, surface quality and machinability.

Tropical okoumé wood is characterised by its excellent performance in outdoor applications, thanks to its natural durability. It also has remarkable flexibility and surface hardness, and its decorative finish is ideal for furniture and decoration.

Applications:

Ideal for a large number of applications such as the manufacture of furniture and decoration, caravan and vehicle equipment, construction projects or the nautical industry.
